Route 52 at Route 82 Intersection Improvements

Town of Fishkill, Dutchess County

NEW YORK STATE | Department of Transportation

OPEN HOUSE

Thursday, December 4, 2025
6 p.m. – 7:30 p.m.

Fishkill Town Hall
807 Route 52, Fishkill 12524

PROJECT OVERVIEW

The New York State Department of Transportation (NYSDOT) will host an open house to present proposed improvements to the intersection of Route 52 and Route 82.

The preferred alternative would be to construct a modern roundabout to replace the existing signalized intersection. This alternative would include constructing new sidewalk, crosswalks with pedestrian refuge islands and curb ramps in compliance with modern Americans with Disabilities Act standards.

PROJECT BENEFITS

The project would reduce traffic congestion while enhancing overall intersection operations, enhance safety for motorists and pedestrians, and provide streetscaping, such as landscaping and lighting.

MINIMIZING CONSTRUCTION IMPACTS

The intersection would remain open to traffic during construction, with no lane closures or detours expected.

PROJECT SCHEDULE

Construction is expected to begin in the spring of 2027 and be completed in the spring of 2028.

BENEFITS OF A ROUNDABOUT

Compared to traditional intersections, roundabouts see

- 90% fewer fatalities
- 76% fewer injuries
- 35% fewer crashes overall

While traditional intersections have 32 points of potential conflict between vehicles and 24 points of potential conflict between vehicles and pedestrians, roundabouts only have 8 points of conflict with each.

CONTACT US

Those who are unable to attend can provide feedback about the project to Deyla Olarte, P.E.
